

GERMAN REVOLUTION FAILURE, KAPP RESIGNS, FAVOR EBERT, REPORT

New Government Fails to Gain Support of People of Nation—Four Hundred Reported Killed and Many Wounded in a Bombardment of Kiel by German Cruiser.

LONDON, March 16.—Chancellor Kapp, head of the government at Berlin has resigned in favor of President Ebert says the Berlin correspondent of the London Times under date of Tuesday evening. Efforts to form a Kapp ministry have been abandoned.

Berlin, March 16.—(By The Associated Press.)—By Telephone to Coblenz.—The removal of the Ebert government headquarters from Dresden to Stuttgart and the calling of the national assembly to meet at Stuttgart instead of at Dresden were said here today to have been caused by the fact that the Kapp government had retreated around President Ebert and Minister of Defense Noske.

WASHINGTON, March 16.—The statement was made by Sunday's Journal of the rumor that the Jacksonville Lodge of Elks has purchased the Y. M. C. A. property. Yesterday afternoon it was given for a definite announcement of that fact. The contract for the transfer of the property has been signed and it is understood that it will become effective May 1, 1920. This does not mean that the Y. M. C. A. will go out of business. On the contrary, it is the belief of the officers of the association that this will mark the beginning of larger usefulness for the association. The purchase price was \$27,500.

Site Option Taken.
An option was taken by the association officers on one piece of property before the sale to the Elks lodge was consummated. A committee on site and location has also been appointed and it is the intention to consider a number of possible locations before full details of the plans of the Elks have not been made public, but it is known that an extensive remodeling of the building is contemplated and that the organization expects to have an Elks home that will be a credit to the organization and to Jacksonville.

The Y. M. C. A. began its work here in 1880, when the building was made possible thru the donation of the site and a sum of money by the late Mrs. William Thomas. General contributions were made toward the fund and the building was dedicated. Approximately 15 years ago an addition was made on the east side.

Need Modern Building.
For a number of years the officers of the association have felt the need for a modern building equipped in a more complete way than would be possible in the present quarters. The whole question of a new building was considered thru many weeks. The association officers decided after a most careful survey and after consultation with state officers of the association and with Jacksonville business men, that the best course, the one leading forward to the securing of a new building, would be the sale of the present quarters.

When J. S. Findley, the present secretary, came to the association in August 1916, it was really the intention to begin a campaign for the new building at that time. But the war came on and it was of course necessary to postpone the project. During his several years' work here Mr. Findley has evidenced his earnestness in the work in which he is engaged and his great desire to serve the young men of the community and to build up the influences that make for Christian manhood. He has identified himself with various movements for the betterment of Jacksonville.

Community Work.
Yesterday when talking about the sale of the property, Mr. Findley said that he joined with the directors and the officers of the association in the belief that new quarters can be secured and be a very definite aid in the enlargement of the work.

Pending any new building program temporary quarters will be secured and the work of the association will continue uninterrupted way. In addition to the building it will be the intention to do community work and the various wards are expected to be more active in the past.

Officers of the Board of Directors are:
H. Rodgers—President.
C. H. Rammekamp—Vice President.
H. H. Vasconcellos—Recording Secretary.
W. G. Goebel—Treasurer.

GEN. WOOD CARRIES NEARLY EVERY COUNTY IN MINNESOTA PRIMARY

Will Probably Have Solid Backing of Copher State in Chicago Convention

ST. PAUL, March 16.—Republican leaders in the Twin Cities tonight admitted that the county conventions to be held tomorrow in St. Paul and Minneapolis will practically determine whether the Minnesota delegation of 24 to the national convention will be solid for the nomination of Major General Leonard Wood. There are ten congressional districts in Minnesota. Each district chooses two delegates to the national convention and the state convention selects four delegates at large. County conventions will be held tomorrow, the district conventions will be on Friday and the state convention will be held here Saturday. In the seven districts outside of St. Paul and Minneapolis the Wood forces scored a conceded victory at the preferential primary yesterday. In the fifth and tenth districts which include Hennepin county (Minneapolis) supporters of Senator Hiram Johnson claim control. In the fourth district Ramsey county (St. Paul) the dispute regarding control will be decided at the county convention tomorrow. Popular vote figures from the state at large have been generally ignored by political leaders. Each county committee was depended upon to provide ballots and many incidents of confusion were reported. In some precincts there was no vote cast; other precinct booths were not opened, in some polling places there were Wood ballots, but none for Johnson, while in other precincts Governor Lowden's name was omitted in a half dozen counties, where supporters of Herbert Hoover were active, stickers were provided to attach Hoover's name.

As a consequence managers of the Lowden and Johnson campaigns tonight made claims only for the Ramsey and Hennepin county delegations. There were reports that efforts were being made to combine the Lowden and Johnson forces in these two counties, if it were possible to wrest control of the county conventions from the Wood men.

Johnson received the labor vote in the Twin Cities and obtained a popular vote plurality in Minneapolis.

On the face of erratic statewide returns the popular vote went to Wood, with Johnson second and Hoover and Lowden trailing. At least eighty counties out of the 86 went to Wood. Lowden leaders charged that their campaign was affected by Hoover stickers and by the absence of the Lowden ballots in a number of precincts.

W. W. Baldwin, vice-president of the Chicago, Burlington and Quincy Railroad and G. G. Tunnell, tax commissioner of the Santa Fe railroad spoke in the hall of the railroads. They declared the railroads were not advocating any great changes in the present system of taxation.

The committee on education today decided to report unfavorably on an international proposal, the most important being that which would provide for the appointment of county school superintendents.

The convention held a brief session this morning and adjourned in order to allow the committees an opportunity to present their recommendations for proposals.

GREAT INTEREST MARKS WAVERLY REVIVAL

Series of Meetings in Progress at First M. E. Church Grows in Interest—Evangelist LeRoy Mitchell Assisting Pastor.
Special interest and enthusiasm is marking the revival series at the First M. E. church in Waverly. The meetings have been in progress since March 6 and are in charge of the pastor, Rev. F. E. Smith, assisted by Rev. LeRoy J. Mitchell known as "the gutting cat evangelist."

Prof. Edward Shimer is the leader of songs and Mrs. Shimer is the pianist.

Large audiences greet Evangelist Mitchell each night and the indications are that when the series closes at the end of this month, worth while results will have been accomplished. The evangelist is delivering some strong sermons and his words are heard with profit by old and young.

Tuesday night was especially for high school students and there was a large attendance of young people. At the close of the sermon twenty-seven young people indicated their intention to lead better lives. Following the services adjournment was taken to the basement of the church where a reception was held in honor of the students. Light refreshments were served by the ladies of the church.

It was announced Tuesday night that the theme for tonight's sermon will be "Cards, Dances and Theatres." Thursday night will be family night, when a family Bible will be presented to the largest family in attendance. Friday night will be grade school and booster night and Saturday night has been designated "farmers' night." At that service a year's subscription to the Waverly Journal will be given to the farmer coming the longest distance. Sunday afternoon there will be a patriotic service at the church.

The services last Sunday were of special interest and were attended by audiences which taxed the seating capacity of the church. At 2:30 in the afternoon Evangelist Mitchell addressed the men at the opera house his subject being "Hot Stuff." He conducted a service for women at 3:30 Sunday afternoon at the church, when his subject was "The Deceitful Ducks of Waverly." At 6 o'clock there was a special service for young people, when the evangelist's theme was "Love, Courtship and Marriage."

CHAMP CLARK DOES NOT SEEK SENATORSHIP

Declares He Is Unwilling to Swap
Leadership in House for Position
of New Senator.
Washington, March 16.—Representative Champ Clark of Missouri, formally announced today that he would not be a candidate for the senate because of his unwillingness to swap "the Democratic leadership in the house for the position of new senator."

The former speaker declared in a statement to "the people of Missouri" that between the two offices he felt he could render better service to the people by remaining in the house.

I have never believed that a man has any moral right to enter a race for great office involving himself and his friends in all sorts of labor and turmoil without first viewing the landscape over considering the whole situation," Mr. Clark said.

"I have considered it from every standpoint as to my own feelings, as to my relations to the Democracy of Missouri, as to my relations to the national Democracy and as to the relative value of my services to the people in the house or senate.

"As a result, I have concluded not to be a candidate for the senate thereby swapping off the Democratic leadership in the house for the position of a new senator. There is a house habit with which I am thoroughly acquainted and a senate habit with which I am not familiar. Between the two I prefer the house and believe I can render the people more service there."

LOWDEN FOR LOCAL SELF-GOVERNMENT

Governor Frank O. Lowden believes strongly in the importance of successful self government in local communities as a condition to democratic principles in the nation at large.

"Successful self-government in even the smallest political unit is the only guaranty of successful self-government in a great country such as ours," the Governor said. "The primary duty of every political division is to keep its own house in order. Men are too prone in these days when disorder threatens to call for soldiers. Every time outside force in any community, is employed it is a confession of weakness in the foundations of our institutions."

THE BETTER OUTLOOK

Important events in the last ten days have been undeniably constructive, according to the *Bache* financial review. First, the railroad bill placed the second and greatest industrial undertaking in the country in line for rescue from impending financial catastrophe, opening up possibilities of gradually regaining prosperity as a whole. The defeat of the Steel dissolution suit, the exemption of stock dividends from income impost, and the favorable railroad valuation decision, are all in line to favor the belief that a sounder procedure, backed by public opinion, is being instituted in various public

matters affecting the general welfare.

The exchange situation has materially improved. Improvement in foreign exchange acts like a reduction in the tariff, enabling foreign buyers to get their goods here cheaper, and to that extent helps our export situation. For instance, during the week in the cotton market, into this market a substantial amount of buying for Liverpool account, the sharp advance in exchange was an important influence on prices, serving to improve sentiment on foreign buying, and it also brought it this far of cotton, it would also favorably affect activity in sales of other commodities.

COUNTS PRODUCTION AS MOST IMPORTANT THEME

Being in increased production a means of restoring normal business and price conditions, the Chamber of Commerce of the United States, it was announced, will make its eighth annual meeting, to be held in Atlantic City soon, an increased Production Convention.

Every topic will be considered from that viewpoint. The relation of government to production will be first taken up and under that heading will be considered anti-trust legislation and taxation. Business of every kind is declared to be keenly interested in taxation, especially excess profits taxes.

Another phase of the problem to be discussed will be the part of the government, the farmer and the business man in increasing farm production. Secretary of Agriculture Meredith will speak for the government. The relation of labor to production will be approached from both sides, the employee's viewpoint to be presented by a representative of the American Federation of Labor and the employer's by a business man. There will be group meetings for each of several great divisions of industry.

The teacher-shortage situation, while in some parts of the country slightly better than last October, when the National Education association made its inquiry, is still a very grave problem, according to reports received by the Bureau of Education, Department of the Interior.

Recently the Commissioner of Education found, on the basis of returns from State school officers, that there are 18,279 schools closed because of lack of teachers and 11,500 schools taught by teachers characterized as "below standard but taken on temporarily in the emergency."

Substandard teachers are reported as follows: Texas, 4,000; Virginia, 3,500; Alabama, 3,500; Georgia, 3,000; Tennessee, 3,000; Minnesota, 1,800; Illinois, 1,200; Kentucky, 1,100; New York, 1,100; South Carolina, 1,000.

In response to the question "To what extent are taxpayers interested themselves in paying better salaries for teachers?" 14 States report that the interest is general. One State reports "great

interest," and one State reports "very large interest; while another reports that they are "doing their best."

One significant fact in connection with the shortage of teachers is that 190 State, county, city and private normal schools report 11,503 fewer students November 1, 1919, than they had the year previous to the war. These schools reporting represent 60 per cent of the total normal schools, and on this basis, there would be a shortage of 19,170, and at graduation time, 1920, there will be 7,000 fewer graduates from the normal schools. Teacher-training departments in colleges show approximately the same falling off in those preparing to teach, although other departments show a great increase in enrollment.

Rippling Rhymes
By Walt Mason

No Audience.

My neighbors all have had the flu, its fiercest pangs they claim to now; and so there is no man in view who'll listen to my tale of woe. Oh none will hearken to the tale of all the agony I knew, or pay attention to my wail—my neighbors all have had the flu. I'd like to have some chaste disease that no one else has ever tried; some new affliction of the knees, or an eruption of the hide; then I could talk the live-long day of aches original and new, and no cheap skate could rise and say, "I've had that ailment worse than you." Then I could look with high disdain on all the people of this grad, who wrestle with old-fashioned pain, the chestnut ills that Adam had. Then in my joy I know I'd make the welkin echo with my song; alas, one cannot choose his tale he has to take what comes along. Oh, sickness makes the spirit sag, and all the anguish is in vain. If one can't stand around and brag, and show some diagrams of pain. And none will listen to my spiel of gaudy suffering I know; men care no hoot how tough I feel, for all the boys have had the flu.

IN ZANE GREY'S TRIUMPHANT NOVEL
The Last of the Duanees

"The Last of the Duanees" is from Zane Grey's wonderful romantic novel of love and danger, thrilling in every breathless situation, a live chapter centering in the history made by that most gallant body of men, the Texas Rangers.

"The Last of the Duanees," photographically, also is a masterpiece. The rugged scenery, the beauty of the mountain fastnesses, give fitting setting for the whirlwind action in which "Buck" Duane matches his courage and cunning first against the Rangers and later as their ally against the outlaws from whom he has rescued the girl who in the end saves him.

WHEN THE HUMAN MACHINE
GOES WRONG

Nature intended that each human body when in normal condition should always be healthy. Weakness and disease are therefore the results of deranged function in some part of the body due to an interference with Nature's way.

Through Chiropractic methods, every part of the body can be brought to normal and made strong and healthy because the forces of Nature have been permitted to resume their work of nourishing, strengthening and repairing worn out, weak tissues and organs.

Chiropractic helps Nature to restore and rejuvenate run-down bodies. It can make the system tingle with vigorous life-energy and do it easily, simply and naturally. While this new science will not do the impossible, it will benefit even after all other methods have proved incapable of reaching the trouble. Thousands have found full restoration to natural health through

Why a Trust Company To Manage Estates?

The trust company was created by law to act as executor and trustee under wills, administrators, guardians, etc.

Because So Many Individuals

- Are not sufficiently responsible
- Lack training and experience
- Fall sick, travel, pass away
- Have cares of their own

THIS Company

- Backs its fiduciary services with its capital of \$100,000.00.
- Has had experience in managing estates.
- Has a permanent organization, ever accessible, always on duty.
- Makes a business of administering wills and managing estates; has no conflicting interests of its own; is an unfailing, disinterested representative of the testator.

If trust company service has been created for the express purpose of safeguarding estates—why not avail yourself of it? The fee is no higher than you would have to pay a competent individual.

ADDITION IS MADE TO CHAUTAUQUA FUND

DIRECTORS HELD MEETING TUESDAY NIGHT

Report For 1919 Assembly Delayed Because of Controversy Over Revenue Rulings—Satisfactory Profit For Year Shown—Officers Chosen.

The directors of the Jacksonville Chautauqua Association met last evening at the Pocomo Inn for the first time since the close of last chautauqua. The delay in meeting was the result of a long drawn out controversy with the United States Internal Revenue Office as to the admission taxes collected on season tickets sold last year.

Prior to the printing of the tickets the Secretary made two trips to Springfield to consult the Collector as to the rates of admission taxes the association collected 15 cents on each adult season ticket sold and 10 cents on each child's ticket. After nearly all of the season tickets were sold a ruling was received by the association requiring it to collect 30 cents admission tax on each adult ticket and 25 cents on each child's ticket. At the time this ruling was received it was too late to collect the increased rate.

When the association paid the admission taxes amounting to \$76.24 a demand was made upon it for additional payment of \$109.95 which if paid could only have been paid from the association's surplus. The directors protested the matter and took it up with the commissioner of internal revenue at Washington only to be advised that the additional amount claimed must be paid. Finally the matter went to the Attorney General of the United States and he held that the association was not liable for the additional taxes.

The 1919 Chautauqua shows a net profit of \$682.21 which will be carried forward for the promotion of future chautauquas. The directors made a donation of \$250.00 to Helen Grant James, whose mother died as the result of an injury in the windstorm of the 1918 chautauq. While disclaiming any liability on account of the unfortunate happening the directors unanimously for that contribution their action and regretted the funds of the association would not permit a larger gift.

STREET RAILWAY RATES AND FRANCHISE

EDITOR JOURNAL: I understand the Street Railway has filed a petition with the "Corporation Commission" for an increased rate of fare.

The fare used to be 5c. It was increased to 6c and I understand they wish to raise it to 7c or more. The Street Railway Company have marshaled its assets and evidence to show that the company is not getting a reasonable return on the amount invested. Of course many of the values are fictitious. The values are fixed at present cost values and they pay nothing for the valuable right of using the public's streets.

The franchise, or the right to use the streets, is a thing of great value. It costs them nothing and they have been made to pay for the use of the streets only for the mismanagement of the city's representatives under the Commission Form of Government, but something might yet be done toward adjusting the rights and it says with the City administration to initiate such desired arrangements.

The Street Railway's rights are indefinite and possibly may become perpetual under the present condition of affairs and although the earnings may be small at present, the franchise values of the same are held up weapons and are of great value to the company.

The company may talk of bankruptcy and it might actually go through the forms of bankruptcy, but there would never be a word said about surrendering or modifying its franchise rights.

Of course the purchasing power of a dollar has gone down but the employees of the Street Railway have not received such an increase in salary for a long time. But suppose the purchasing power of the dollar had gone up instead of down, do you suppose the Street Railway Company or the Corporation Commission would have entertained a claim from the public for the reduction of fares?

The Street Railway Company entered upon the operation of the Street Railway for profit and they are entitled to no more reward than any other commercial enterprise undertaken for profit.

If the Street Railway Company, being the holder of the exclusive rights over the main streets of the city of Jacksonville, really desired to deal justly with the public they would be willing to make terms that would enable the city to recover rights that it should never have lost or surrendered. A stand should be taken by the city when the street car company asks for relief whereby the city should be opened with a view of obtaining franchise relief in consideration of the increased revenue to the city.

Fixing the franchise rights of the Street Railway Company. No business man would surrender the right of another business an adjustment of their affairs without at the same time giving consideration to the adjustment of his own affairs equitably with the other fellow. The fact that the Street Railway Company is doing only with the representatives of the people makes no difference as between one business man and another.

The city's representatives should contend for the public's rights and enter into a just and a desirable contract arrangement as to the use of the public streets by the Street Railway company. Now is a good time to start it.

Very respectfully,
William N. Haisgrove.

Nuxated Iron Helps Make Red Blood

The Kind That Puts Roses Into the Cheeks of Women and Force, Strength, and Courage Into the Veins of Men

Watch the People You Meet On the Street—You Can Tell Those Who Have Plenty of Iron in Their Blood—Strong, Healthy, Vigorous Folks

Cut this Out

Sworn Statement of the Composition of the FORMULA of Nuxated Iron

It is conservatively estimated that this remarkable formula is now being used by over three million people annually. Among those who have used and strongly endorse it are many physicians who have been connected with the best hospitals and medical societies, former United States Senator and Vice-Presidential nominee, Chas. A. Towne, of Minnesota; U. S. Commissioner of Immigration, Hon. Anthony Caminetti; Judge Atkinson of the United States Court of Claims at Washington; Wm. L. Chamberlain, Commissioner of the United States Board of Medication and Conciliation at Washington, and former Health Commissioner Wm. R. Kerr, of Chicago.

Newspapers everywhere are invited to copy this statement for the benefit of their readers. It is suggested that physicians make a record of it and keep it in their office so that they may intelligently answer questions of patients concerning it. Everybody is advised to cut it out and keep it. A copy of the actual sworn statement will be sent to anyone who desires such. It is as follows: Iron Peptonate (Special Specific Standard) Quantities below. Sodium Glycero-phosphate U. S. P. (Monsanto), Calcium Glycero-phosphate U. S. P. (Monsanto), P. E. Nuxated Iron U. S. P., Calcium Bitartrate, Magnesium Carbonate, Pot. Ginger U. S. P., Oil Cassia Cinnamon Precip. U. S. P., Calcium Carbonate Precip. U. S. P.

form of iron. By using other makes of Iron Peptonate we could have put the same quantity of actual iron in the tablets at less than one-fourth the cost to us, and by using metallic iron we could have accomplished the same thing at less than one-twelfth the cost; but by so doing we must have most certainly impaired their therapeutic efficacy. Glycero-phosphates used in Nuxated Iron are of the most expensive tonic ingredients known. It is especially recommended to build up the nerve force and thereby increase brain power as glycero-phosphates are said to contain phosphorus in that particular state so similar to that in which it is found in the nerve and brain cells of men.

As will be seen from the above, two important ingredients of Nuxated Iron (Iron Peptonate and Glycero-phosphates) are very expensive products as compared with most other tonics.

Under such circumstances the temptation to adulteration and substitution by unscrupulous persons, is very great and the public is hereby warned to be careful and see every bottle is plainly labeled "Nuxated Iron" by the Day Health Laboratories, Paris, London and Detroit, U. S. A., as this is the only genuine article. If you have taken other forms of iron without success, this does not prove Nuxated Iron will not help you.

MANUFACTURERS' NOTE—Nuxated Iron is not a secret remedy, but one which is well known to druggists everywhere. Unlike the older inorganic iron products, it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach. Nuxated Iron is not recommended for use in cases of acute illness, but only as a tonic, strength and blood builder. (In case of illness always consult your family physician and be guided by his advice.) If in doubt as to whether or not you need a tonic, ask your doctor, as we do not wish to sell you Nuxated Iron if it does not help you, notify us and we will return your money. It is sold by all druggists.

FORMER RESIDENTS POPULAR IN MISSOURI

Mr. and Mrs. Lloyd L. Luckeman Highly Regarded in Archie, Mo.—Are Now Located at New Home Northwest of Archie.

Many Morgan county residents will be interested in reading the following item from a recent issue of the Archie (Mo.) News. It concerns Lloyd L. Luckeman and family, who until two years ago were residents of this county living in the Petry farm of here. Mr. Luckeman and family two years ago moved to Archie, Mo., and have just moved to a farm ten miles northwest of Archie. The item referred to reads as follows:

"Lloyd L. Luckeman and family moved to their new home in 'Amarugua' on Monday, March 22. The people of Archie are very sorry to lose these good people from the community. While they have only been here two years, they have endeared themselves to the people here and all regret to see them go. Mr. Luckeman is an up-to-date farmer and he and his wife and daughter have taken an active part in the Red Cross and other war work. They are also among the most active members of the Methodist church at Archie.

In moving Mr. Luckeman carried off the blue ribbon in a unique scheme, attracting a great deal of attention in town by doing so. He fixed up the back end of his Oldsmobile motor car in fine shape and loaded 46 weeks old Berkshire pigs and moved them to his 'Amarugua' farm ten miles northwest of Archie, and he arrived there with them all right side up too. We trust his office as 'King of Amarugua' will not make him forget his old time friends and neighbors, and that we may see them back our way every once in a while."

CLOSING OUT

SALE AT CHERRY'S

Long Time Livery Barn Changes to Auto Service Station.

Times change, but it is only the abrupt changes which attract our attention. Such a change occurred yesterday when John Cherry sold his entire horse equipment at public auction.

For many years Cherry's Livery has been an institution in Jacksonville furnishing everything in the line of animal transportation. There the delivery horses were kept, teams furnished for work and for driving, and in the days before the automobile many people in Jacksonville kept their driving horses at the barn.

But the day of the horse is passing and in keeping with progress Mr. Cherry has remodelled his barn and substituted for the old livery a complete service station for automobiles and will continue to serve the public as they change from the use of horses to autos.

The sale attracted much attention and Monday afternoon and Tuesday morning many people were at the barn looking over the stock. Miss Mabel S. Deschanes, a popular and attractive young woman residing at No. 7 Bartlett Street, Lewiston, Me., is now an ardent champion of Tanlac, since she began using it a few weeks ago.

"I prize Tanlac above every other medicine, even that which was prescribed for me," said Miss Deschanes in relating her experience recently. "I dislike publicity, but there are so many others who, no doubt, suffer as I did, I feel that I ought to tell them about it."

"I had been a great sufferer from indigestion and had been under the doctor's care for six months without relief. At the time I began taking Tanlac I was on a very rigid diet and at times could not retain food of any kind. Even cold water would cause extreme nausea. I suffered from loss of appetite, severe cramping pains after eating and extreme nervousness."

"Finally my condition got so bad I simply had to give up and go to bed until I got relief. I was unable to go down town to do my shopping and, although I had been under treatment for six months, there seemed to be no relief for me. Honestly, I don't believe I would be alive now if I hadn't gotten Tanlac, for I was suffering terribly and getting worse all the time."

"Finally my sister persuaded me to try Tanlac. I improved from the very first and one bottle did me more good than the six months' treatment. Why, I actually gained four pounds in weight while taking this one bottle. I have now taken four bottles and I feel just like a different person and am eating just anything I want; in fact, everything seems to agree with me perfectly. I am now able to do my shopping without becoming fatigued in the least and am no longer nervous like I was."

"Tanalac is simply wonderful, and I cannot praise it too highly. Tanlac is sold in Jacksonville by Coover & Shreve and by the leading druggist in every town.—Adv.

Rev. W. R. Johnson preached at the Baptist church on Sunday morning and evening. The General Epistle of Jude was the morning lesson and the text was from the third verse of the same.

Brother Johnson preached a bed-rock sermon on true religion, showing the 23rd century churches as they are in many places at the present time. He said, generally speaking, churches of the present day are rich socially, humanely and financially, but starving in spirituality and piety. There is a demand for social and entertaining sermons. The people of today do not care for "the old-time religion," closed his sermon with the warning, Behold the bride-room, brethren, go ye out to meet him."

The subject for the evening was the first of Psalm.

A 10-Day Tube of Pepsodent

Make This Free Test

For the Sake of Whiter, Safer Teeth

All Statements Approved by High Dental Authorities

The dealers named below have been supplied with 10-Day Tubes of Pepsodent. This week a tube will be handed free to anyone who asks. Simply present the coupon. The purpose is to urge a test of this film-removing tooth paste, which leading dentists nowadays advise. Prove the results for your own sake and your children's sake. Learn what they mean to your teeth.

See How Your Teeth Look When the Film is Gone

It Is Film

It causes men's teeth to discolor, and that holds tobacco stains.

There is on your teeth a slimy film. You can feel it with your tongue. It clings to the teeth, gets between the teeth and stays.

The tooth brush doesn't end it. The ordinary dentifrice does not dissolve it. So it clings and, night and day, it may do ceaseless damage.

The results are seen everywhere in cleaner, whiter teeth. Some of your own friends have them.

For home use, this method is embodied in a dentifrice called Pepsodent. And this week you can test it at our cost.

The Tooth Wrecker

That film is the great tooth wrecker. Most tooth troubles are now traced to it.

The film is what discolors—not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Also of many other troubles, local and internal.

That is why well-brushed teeth so often discolor and decay, why tartar forms and pyorrhea starts. You leave much of that film.

Tooth troubles are constantly increasing, as statistics show, despite the wide use of the tooth brush. And the reason lies in that film.

Now We Combat It

Dental science, after years of searching, has now found a way to combat film. Able authorities have proved it by convincing clinical and laboratory tests. Thousands of dentists have proved it, and at least a million people.

Watch the Results

We urge you to present the coupon. Get the 10-Day Tube and use like any tooth paste. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how the teeth whiten—how they glisten—as the fixed film disappears.

Compare the results with your old methods. Then let your own teeth decide the method best for you and yours.

This is of lifetime importance. Don't neglect it. Cut out this coupon so you won't forget.

NEW COUNTY ROAD DISTRICT IS PROPOSED

Boundaries of Number Eight Changed By Board—Protests Filed and Rehearing Is Granted.

By recent action the board of county commissioners changed the boundaries of road district No. 8 and created road district No. 17. Road district No. 8 extends from a point west of Arnold to the eastern boundary of the county, and it is six miles from the north to the south boundary. Under the law 20 land owners can unite in a petition to a county board in order to bring about a revision of road district boundaries. Such a petition was presented to the board signed by 27 land owners a number of them residents in the northern part of road district No. 8.

It now appears that a large number of the residents of district No. 8 object to the re-districting program and there were between 20 and 40 of these objectors who appeared before the county board yesterday to make known their reasons for objections.

Special Hearing Thursday
After hearing the argument the board determined that the objectors to the formation of road district No. 17 will have a hearing between the hours of 10 and 11 o'clock tomorrow morning. Then between the hours of 11 and 12 o'clock the board will hear further statements from those who have petitioned or are in favor of the re-districting. The effect of the re-districting would be to put Alexander and that part of district No. 8 east of Alexander into district No. 17. John Snyder is now the road commissioner of No. 8 and Charles M. Strawn is the clerk. The board after granting the petition for new district, made the stone of John Wagner the polling place for the election April 6, and named George Hall, John Wagner and Samuel Wilcox as the judges of election.

There are presumably a number of local problems involved in the controversy. A considerable number of the objectors who appeared yesterday said they feared the effect of the change would mean that too large a percentage of the road tax money would be spent in the north part of district No. 8 and that the road in the south part of the district, now in excellent condition, would not be maintained. However, the whole matter is to be fully aired at the hearing which the commissioners have fixed for tomorrow.

The petition to the board was signed by the following land owners: F. L. Green, George H. Hall, Edgar O. Cully, T. L. Travis, A. O. Harris, J. T. Holmes, Frank Hunter, A. H. Holborn, J. W. Arnold, T. S. Hamilton, James N. Baker, Scott B. Green, G. L. Tindall, Samuel E. Davis, W. C. Baxter, G. L. O'Neil, L. B. Trotter, C. M. Coons, A. F. Lawson, E. O. Green, F. T. Matthews, A. I. Harris, Rhonda Harris, George W. Lockhart, Fred Wallbaum, Peter Wallbaum, W. M. Cleary.

Petition For District.
The language of the petition was as follows:

"The undersigned land owners residing in road district No. 8 in the county of Morgan and State of Illinois, who are legal voters of and in said road district No. 8 aforesaid, do hereby petition you to alter the boundaries of said road district No. 8 aforesaid and to create a new road district in said county, to be known as road district No. 17, to suit the convenience of the inhabitants now residing in said road district No. 8, aforesaid, and within the boundaries of said new road district proposed to be created aforesaid; that said alteration of the boundaries of said road district No. 8 aforesaid to be made as follows, to-wit:

Beginning at the northwest corner of township 15 north, range 9 west of the third principal meridian, being also the N. W. corner of the present road district No. 8, thence running south on township line to the southern boundary line of township 15, range 9, thence east on township lines to the southeast corner of section 36, township 15, north, range 9 west, thence north on township lines to the northern boundary line of said township 15 north, range 9 west, thence west to the place of beginning, and that of that part of said road district No. 8 aforesaid as it now exists and remaining after the alteration of said road district No. 8 aforesaid, you will create a new road district to be known as road district No. 17.

CHAS. B. GRAFF FUNERAL TO BE HELD THURSDAY

Death Came to Prominent Citizen Following Weeks of Illness—Resident in Morgan County Thru all His Life.

Death came to Charles B. Graff at 8:30 o'clock Tuesday morning at Our Savior's hospital. Some weeks ago a severe nervous breakdown compelled Mr. Graff to leave his position as vice-president of the Ayers National bank.

After a period of confinement to his home there came a brief period of improvement, but this was of a temporary kind and the members of his family and close

CHARLES B. GRAFF

friends sensed the fact that his condition was serious. Monday at the hospital a decided change was noted in his condition and members of the family were notified that the end could not be far distant. Death was due to uraemic poisoning.

Mr. Graff had spent his entire life in this county and was born April 21, 1868, the son of Mr. and Mrs. Washington Graff. The family home was in the vicinity of Prentice and after attending the schools there as a lad he took a course at the business college in this city. Subsequently he established his own home on a farm located south of Virginia. After a year's residence there he became the owner of a farm near Prentice and engaged in the mercantile and grain business at that time.

Mr. Graff as a young man manifested his interest in politics and held a number of minor offices while living at his farm home. Later he became a resident of Jacksonville and filled the offices of county clerk and sheriff. Mr. Graff had also served as city treasurer and has filled various positions of honor and trust, both by election and appointment.

After completing his term as sheriff, Mr. Graff became vice-president of the Jacksonville National bank and when that institution was merged with the Ayers National bank he entered upon the duties of the position which he was holding at the time of his death. Aside from holding office the deceased was a man of large influence in the political affairs of the city and county. Probably no man had a larger Morgan county acquaintance than he and his untimely death has brought sorrow to friends in every part of the county.

Mr. Graff was a member of Central Christian church and a liberal supporter of various departments of the church work. He was an Odd Fellow, a member of the Elks, Knights of Pythias and M. W. A. It was October 6, 1887 that Mr. Graff was married to Miss Alice Johnson, who survives him together with their daughter, Miss Lulu Elaine Graff.

In addition to his immediate family Mr. Graff leaves his mother, Mrs. Minnie Graff of Ashland; six sisters and four brothers: Z. W. Graff of McLeansboro; William Graff of Ashland; County Treasurer Grant Graff of this city; John W. Graff of Ashland; Mrs. Mary E. Thompson, Colorado Springs, Colo.; Mrs. Lulu F. Cook, Bloomington; Mrs. Myrtle Kinnian, Ashland; Mrs. Alma Hagen, Arnold; Mrs. Catherine Mau, Ashland; Mrs. Parthenia Wyatt, Bloomington.

Mr. Graff met large responsibilities in an able way. He was a business man with keen vision and his knowledge of men was of great advantage to him in business transactions and in political affairs. Even those who did not agree with him in politics had high personal regard for him as they recognized the generosity of his spirit and the warmth of his friendship.

Many are the men in Morgan county to whom Charles B. Graff has been a friend in need. He was a willing contributor to all good causes and those who knew him intimately were aware of his many private benefactions. So he passed along life showing generosity to many people and an earnest desire to be of service. His going therefore is a matter of personal sorrow to his very side circle of friends, and the large responsibilities that he has rendered must be taken up by other hands.

The funeral service will be held Thursday afternoon at 12:30 o'clock at the residence on Sandusky street, with services in charge of Rev. M. L. Pontius. It is expected that interment will be at the Ashland cemetery.
